Update 2025

## Details

Endlessly surprising as you connive your way to the top, fall back down again, then claw up the rungs once more as your disposed king's rightful heir, Crusader Kings 3 shows that even though the weight of a crown wears heavy, it's a lot of fun to try and keep it from toppling.

The game's library of clips features rehearsals, rushes, and full scenes from all three of the films, plus table reads, behind-the-scenes footage, and more. And the player gets to navigate them frame by frame in their own time, gradually piecing together bits of what becomes a creepy and brilliant treatise on the nature of filmmaking itself. It's difficult to explain how compelling the process is on paper, but I urge you to give it a whirl. Chances are you'll be quickly hooked into Barlow's brilliant narrative.

Inside is not only one of the best games on Game Pass but quite possibly one of the best games you'll ever play. Dark, unsettling, and unwilling to explain anything to the player, Playdead's wildly inventive 2D puzzle platformer isn't a particularly long game, but it's perfectly designed, and there's barely a sequence that isn't memorable, and as for the incredible ending, well, people are still talking about that years after the game first released.
